CAUSES ARREST
OF RECRUITStrenuous Efforts of Louis Dumont, Who Wants to Serve
La Belle France, Get Him Into Court.(Associated Press Correspondent)
Paris, Jan. 4.—A remarkable instance
of red tape in the administration
of French affairs is furnished by
Louis Dumont of Vézelay in the
department of Seine et Oise. He
describes himself as "the man without
a country."Dumont was born in Geneva,
Switzerland, thirty-three years ago of
French parents, though the official
registers of France write them to be
"unknown." Eight days after his
birth he was brought to France and
has lived here ever since. When he
applied to be placed on the recruiting
lists, the council of revision de-
clared that he was a foreigner."Very well," thought Dumont, "I'll
have myself naturalized."But the naturalization bureau also
has its red tape. To be adopted as a
citizen of the French republic it is
necessary that one prove that he is a
foreigner. Dumont went to Switzerland
and though no one doubted that he was
born on the banks of Lake Lemán, he
could not produce any official document
proving his Swiss nationality.Dumont finally succeeded in getting
a certificate of birth on Swiss territory,
but the authorities to issue him a
Swiss passport, as well as to all intents and
purposes prisoners in the gloomy bor-
ghausen."No consideration will induce the
authorities to issue passports, and the
inhabitants are to all intents and pur-
poses prisoners in the gloomy bor-
ghausen."The lack of fuel is another hard-
ship. Nearly all the coal that comes
by canal from Charleroi is taken by
the Germans, who manufacture benzine
for their automobiles from it in
large retorts that they have set up in
the suburbs of Brussels, and it is very
difficult for the people to get even
small quantities they require for
cooking purposes."Every week 2,500,000 francs
(\$500,000) war indemnity has to be
paid over to the Germany treasury offi-
cials. This is a grievous burden to all
classes, and increases the already
heavy taxes from 150 to 200 per cent.""The lack of fuel is another hard-
